PROFILE SUMMARY

Computer Science Engineer with a strong interest in Quality Assurance and Vibe Coding, leveraging prompt engineering and modern tools to support AI-driven solutions. Experienced in understanding system workflows and ensuring functionality through structured approaches, with a focus on identifying issues, improving reliability, and enhancing user experience. Currently developing expertise in the automated testing using Selenium to build robust and reliable software systems.

EDUCATION

B.E. in Computer Science and Engineering

K.S. Rangasamy College of Technology,
Tiruchengode

CGPA: 8.46 2023-2027

Higher Secondary (Class XII)

SRK Matric Higher Secondary School, Salem

Percentage: 86.17% 2023

SSLC (Class X)

SRK Matric Higher Secondary School, Salem

Percentage: 100% 2021

SKILLS

- Automation testing, Manual testing, Java, HTML, CSS, JavaScript, Basic SQL
- Vibe Coding, GenAI Tools, Prompt Engineering, Designing
- UI/UX Design, Canva Designing, Github
- Tools: Antigravity, Claude, Lovable, Chatgpt, Gemini, Copilot, Midjourney, Dall-E
- Other Skills: Team Management, Communication, Punctuality

CERTIFICATIONS

- Prompt Engineering (AI Bootcamp) – Udemy
- Oracle Cloud Infrastructure 2025 Certified DevOps Professional
- NPTEL (Affective Computing-Silver+ELITE)
- NPTEL (Programming in Java-ELITE)
- NPTEL (Design Implementation & Human Computer Interface-ELITE)
- Typewriting in English (Junior)

INTERNSHIP

• IBM SkillsBuild – Edunet Foundation

Certificate Link *July 2025*

Completed a 4-weeks internship focused on AI and IBM Cloud Technologies, with hands-on project development under expert mentorship.

Earned certification through the IBM SkillsBuild platform, showcasing technical proficiency and with professional growth.

INTERNSHIP

• Infosys Springboard Virtual Internship 6.0

Certificate Link *Sep 2025 – Nov 2025*

Actively participated in an 8-weeks internship and completed mandatory assignments focused on the development of a cross-domain knowledge mapping tool.

Gained hands-on exposure to structured problem-solving, domain mapping, and applied learning.

• Nexyuga Innovations Pvt Ltd

Certificate Link *Sep 2025 – Dec 2025*

Successfully completed a 3-month offline intern in Web Development. Designed and developed the complete web pages and components **from scratch**, converting requirements into functional and responsive user interfaces using modern web technologies.

PROJECTS

• DATA PULSE GitHub Repository

A software based on semester calculations and consolidated report generator for the semester exams. Developed only using prompt engineering.

• RESTAURANT AI GitHub Repository

Restaurant AI is an Agentic AI-powered assistant developed using LLMs, Python, Google API, and a web-based frontend. It helps customers view menus, place and track orders, calculate bills, cancel orders, and check restaurant timings through natural language conversations, providing a smart and seamless dining experience across devices.

• KNOWMAP – CROSS DOMAIN KNOWLEDGE MAPPING TOOL

GitHub Repository

Developed as part of the Infosys Springboard Internship 6.0. Focused on mapping process and linking knowledge across multiple domains to enhance conceptual understanding with accuracy and efficiency.

• CHRONIC CARE AGENT

GitHub Repository

Built an AI-based conversational chronic care agent using IBM Watsonx AI and Granite LLM, generates patient risk predictions, health monitoring suggestions, and medical guidance. Implemented NLP-based interaction and intent recognition to provide real-time healthcare insights and improve patient engagement.
